ABOUT ME

Hi! I'm an eager-to-learn tech and denim enthusiast studying to become a frontend developer. I'm often described as hard working and service minded with a positive attitude, and I leave no stone unturned when it comes to solving problems. I've got 27 weeks of internship coming up starting in September 2021, and I'm looking to find a team that can help me expand my creativity and curiosity, and to become a better coder.

EXPERIENCE

Visual Merchandiser, Levi's Flagship Store London September 2018 - May 2019

In London I worked as visual merchandiser at Levi's. My tasks included redecorating the store and mannequins for each season and campaign, tailoring jeans and giving our customers the best service and style possible.

Vice Store Manager, Levi's Store Birsta August 2017 - September 2018

I was the vice store manager and visual merchandiser at Levi's Sundsvall. My tasks included redecorating the store and mannequins for each season and campaign, helping out with training new recruits, scheduling, accounting, tailoring and giving our customers the best service and style possible.

Process operator, Kubikenborg Aluminium June-August 2015 - 2017

Three summers of driving all sorts of trucks and travers necessary for the production of aluminium.

Waitress & Bartender 2012 - 2017

Waitressing and bartending part time for several years in a variety of restaurants including: BiteLine, M/S Medvind, Torget Charkuteri & Brasserie, Villa Marieberg and Södra Berget hotell, spa & konferens.

EDUCATION

Hyper Island August 2020 - Current

Frontend developer program.

Uppsala Universitet September 2019 - May 2020

Political science and microeconomics.

Åkersviks Gymnasium September 2012 - June 2015

Social sciences program with a major in media and communication.
